

## Excel for Windows - Results Spreadsheet Walkthrough

\*\* All Data represented in this walkthrough is used as an example and does not reflect the final tally on January 26<sup>th</sup> \*\*

1. **We are using a Microsoft Excel Pivot Table to make it easy for you to view data by School, City or County.**

2. **By default the PivotTable will have “(All)” selected, giving the Statewide results.**

	A	B	C	D
1	County	(All)		
2	City	(All)		160
3	School	(All)		
4	Party	Republican		140
5				
6	Values			120
7	Row Labels	Total Votes	% of Total	

3. **The Parties’ respective results are on separate tabs.**

The Raw Data is the final tab.

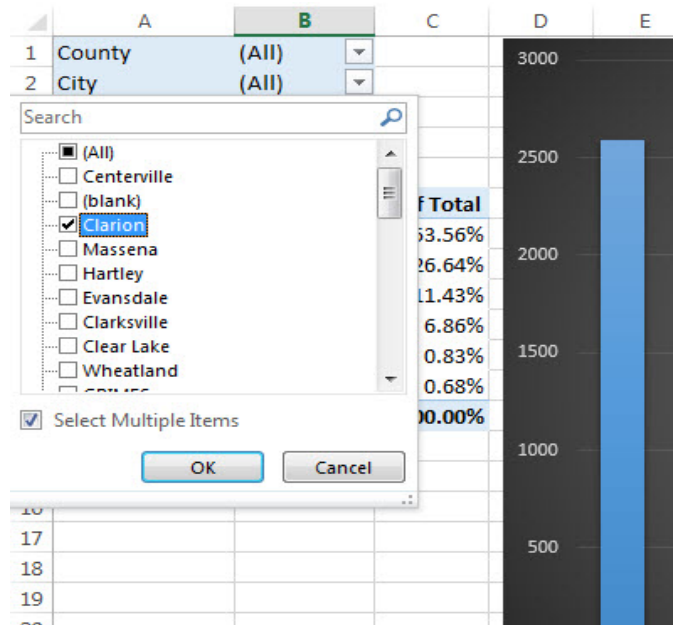

4. **To select results by County/counties:**

- a. Ensure County, City and School are selected by “(All)”, as in the first image.
- b. Click the drop down arrow next to County.
- c. Ensure the box next to “Select Multiple Items” is checked.
- d. Click the checkbox next to “(All)” to unselect all counties.
- e. Check the box next to County or counties you wish to view. Hit Ok.
- f. To go back to “(All)”
  - i. Ensure the box next to “Select Multiple Items” is checked.
  - ii. Click the box next to “(All)”.
